INTERCEPTOR™ Optical Network Security System Now on GSA Schedule

CONOVER, NC (April 17, 2009) - Network Integrity Systems, manufacturer of the Interceptor™ Optical Network Security System, announced today that Interceptor products can now be purchased via Crystal Clear Technologies, Inc.'s United States General Services administration (GSA) Schedule contract, number GS-35F-0145U.

INTERCEPTOR has been deployed within the Intelligence community since 2003, and in support of numerous facilities and installations across the Department of Defense, Department of Justice, and Department of Homeland Security. In addition to protecting classified networks and national security information, INTERCEPTOR has also been deployed to facilitate increased collaboration and information sharing for anti-terrorism activities, and to ensure the continuity of operations (COOP) and assured availability of command and control networks as well as Critical Infrastructures across the United States.
