

INTERCEPTOR Application Engineering Questionnaire

Name: _____ Company: _____
Phone: _____ Email: _____

Fiber Type: Multimode 50 micron Multimode 62.5 micron Single-mode

Is fiber to be monitored Dark (no traffic) or Active (traffic present)?
 Dark Active

What is the communications standard of the network (active fiber only)?

Multimode Fiber:
 1000BASE-LX
 1000BASE-SX
 100BASE-FX
 Other:

Single-mode Fiber
 1000BASE-LX
 Other:

If you are unsure of network communication standard, please enter the manufacturer and part number of the GBIC to be used (this is the optical interface module for the switch or router).

(Dark Fiber Only) How many cable runs are to be protected?

(Active Fiber Only) How many active channels are to be protected?

What is the approximate length of the fiber route to be protected?

Notes & Comments:
